

# Coal Analysis

## Our service includes

- API#2 price forecasts
- Extensive comments and presentations evaluating the global impact on European coal
- Analysis of major global coal markets, i.e. China, India, South Korea and Australia
- Global dry freight impact on the (European) coal market
- Exclusive analysis of Chinese steel, freight and coal
- Coal versus natural gas and oil

## Web-based solution with access to

- Comments, analytics and graphs on the latest news and developments published 2-3 times a week
- Access to monthly presentations from Hans Gunnar Nåvik, accompanied with clear notes and comments and the option to call/email for more

Nena provides independent, non-biased price prognoses and fundamental market analyses to major utilities and trading entities throughout Europe. For 13 years we have taken pride in developing models covering Nordic Power, Continental European Power, CO2 Emission, Dry Freight, Coal and UK Gas markets. NENA does not take trading positions in the market and employs 18 people located in Oslo, Zurich and Singapore.
